Meet the Edgar School District Small School with Big Pride

In Edgar, we strive to connect with all students and create a positive space for every student to learn and grow.

Our schools thrive with the partnership between students, staff, families, and the community. By meeting the needs of all students, equipping students with up-to-date technology, providing professional learning for staff, and offering a broad range of co-curricular activities for students, our focus is always to prepare our students for college, career, and life!

Paving the Way to Success

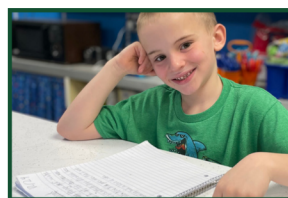

Today's students have different needs than the students that came before them, and what schools provide future generations will continue to change and evolve. A commitment to continual improvement is essential. An education provides a strong foundation in academic skills such as reading, math, and today must provide a foundation in technology use for learning, communication, critical thinking, and problem-solving.

High-Quality Staff Supporting Students

Our staff work to ensure students have quality instruction, personal connections, and adequate resources to succeed academically, socially, and emotionally.

Strong Schools. Strong Community. That is especially true in small rural areas like Edgar that have big pride in its school and its community.

Three Schools, One Campus.

Edgar Elementary School

Personalized Experiences for Students

Our dedicated teachers and staff continually improve so all students improve and grow in reading, writing, and math.

Personalized learning and Individual Support

At Edgar, students in 4K-1st grade have access to iPads and students in grades 2-5 have access to Chromebooks. Our technology ensures every child gets the individualized support they need.

Flexible Environments Promote Collaborative Learning

No longer seated in desks in rows, our classrooms are more flexible, enabling students to collaborate, turn, and talk as they learn to be attentive listeners and become active learners. Students move between groups for learning so that teachers and staff can address individual academic needs while helping each child grow socially and emotionally.

Our Students Are Prepared

At Edgar Elementary, readiness goes beyond just our students—it's ingrained in our entire school community. Our collaborative culture mirrors the collective spirit found within each grade level. Together, we ensure that every child departs Edgar Elementary equipped with a robust foundation, fully prepared for the challenges of middle school and beyond.

Edgar Middle/High School

Opportunities Ahead!

Edgar Middle/High School shares one campus, with appropriate programming for students in grades 6-12. We emphasize high expectations for all students by delivering high-quality instruction.

Career Readiness

All Edgar High School graduating seniors had access to multiple career pathways, which increases the likelihood of our students successfully starting a career post-high school.

Activities to Develop New Interests

Students who are engaged in activities simply do better in school, so we are pleased to offer a full range of activities to help students to discover their passions and interests.

At Edgar Middle/High School, we strive to:

- Provide professional development on high-quality instruction.
- Foster collaboration for staff to take collective responsibility for the success of each student.
- Routinely analyze student data to ensure our efforts reach each student and our school's continuous improvement goals.
- Build positive connections between students and staff

Edgar Middle School
Proud to be recognized
as one of the nation's
BEST Middle Schools!
