BLOOD BORNE PATHOGEN NOTIFICATION

The Board of Education seeks to provide a safe educational environment for students and staff. To this end, students and staff should understand the method of transmission and prevention of diseases that are contracted through direct contact with body fluids and excretions, especially blood, vomit, feces, or urine. The Board is also committed to assuring, to the extent permitted by State communicable disease reporting requirements, the confidential status of individuals who may have been diagnosed with a contact communicable disease. (Board Policy 8453.01 and 29 C.F.R. 1910.1030)

BULLYING AND OTHER FORMS OF AGGRESSIVE BEHAVIOR

The Edgar School District Board of Education is committed to providing a safe, positive, productive, and nurturing educational environment for all of its students. Aggressive behavior toward a student, whether by other students, staff, or third parties is strictly prohibited and will not be tolerated. This prohibition includes physical, verbal, and psychological abuse.

Aggressive behavior is defined as inappropriate conduct that is repeated enough, or serious enough, to negatively impact a student's educational, physical, or emotional wellbeing. This type of behavior is a form of intimidation and harassment, although it need not be based on any of the legally protected characteristics, such as sex, race, religion, national origin, ancestry, creed, pregnancy, marital status, pregnancy, marital status, parental status, sexual orientation, or bullying/cyberbullying, intimidating, menacing, coercion, name-calling, taunting, making threats, and hazing.

Any student that believes s/he has been or is the victim of aggressive behavior may immediately report the situation to the building principal or the Superintendent of Schools. The student may also report concerns to a teacher or counselor who will be responsible for notifying the appropriate administrator or Board official. Complaints against the building principal may be filed with the Superintendent of Schools. Complaints against the Superintendent of Schools may be filed with the Board President.

There shall be no retaliation against students who file complaints or otherwise participate in an investigation concerning allegations of aggressive behavior. Such retaliation shall be considered a serious violation of Board policy and independent of whether a complaint is substantiated. Suspected retaliation may be reported in the same manner as aggressive behavior. Making intentionally false reports about aggressive behavior for the purpose of getting someone in trouble is similarly prohibited and will not be tolerated. Retaliation and making intentional false reports may result in disciplinary action. (Wis Stats §118.46 and Board Policies 5517 & 5517.01)

CONFIDENTIALITY OF PERSONALLY IDENTIFIABLE INFORMATION

The Edgar School District must locate, identify, and evaluate all children with disabilities, including children with disabilities attending private schools in the school district and homeless children, regardless of the severity of their disabilities. The school districts have a special education screening program to locate and screen all children with suspected disabilities who have not graduated from high school. Upon request, the school districts will screen a child who has not graduated high school to determine whether a special education referral is appropriate. A request may be made by contacting your school psychologist: Alyssa Narloch at 715-352-3210

Annually, the districts conduct developmental screening of preschool children. The information from screening is used to determine whether a child should be evaluated for a suspected disability. When school staff reasonably believe a child is a child with a disability, they refer the child for evaluation by a school district Individualized Education Program (IEP) team.

A physician, nurse, psychologist, social worker or administrator of a social agency who reasonably believes a child brought to him or her for services is a child with a disability has a legal duty to report the child to the school district in which the child resides. If the child attends a private school in another school district, the child should be reported to the school district where the child attends school. Before referring the child, the person making the referral must inform the child's parent that the referral will be made. The referral must be in writing and include the reason why the person believes the child is a child with a disability. Others who reasonably believe a child is a child with a disability may also refer the child.

The school district maintains pupil records, including information from screening and special education referral. All records directly related to a student and maintained by the school district are pupil records. They include records maintained in any way including, but not limited to, computer storage media, video and audiotape, film, microfilm, and microfiche. Records maintained for personal use by a teacher and not available to others and records available only to persons involved in the psychological treatment of a child are not pupil records.

The school district maintains several classes of pupil records:

*"Progress records" include grades, courses the child has taken, the child's attendance record, immunization records, required lead screening records, and records of school extra-curricular activities. Progress records must be maintained for at least five years after the child ceases to be enrolled.

*"Behavioral records" include such records as psychological tests, personality evaluations, records of conversations, written statements relating specifically to the pupil's behavior, tests relating specifically to achievement or measurement of ability, physical health records other than immunization and lead screening records, law enforcement officers' records, and other pupil records that are not "progress records." Law enforcement officers' records are maintained separately from other pupil records. Behavioral records may be maintained for no longer than one year after the child graduates or otherwise ceases to be enrolled, unless the parent specifies in writing that the records may be maintained for a longer period of time. The school district informs parents when pupil records are no longer needed to provide special education. At the request of the child's parents, the school district destroys the information that is no longer needed.

*"Directory data" includes the student's name, address, telephone listing, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, photographs, degrees and awards received, and the name of the school most recently attended by the student.

*"Pupil physical health records" include basic health information about a pupil, including the pupil's immunization records, an emergency medical card, a log of first aid and medicine administered to the pupil, an athletic permit card, a record concerning the pupil's ability to participate in an education program, any required lead screening records, the results of any routine screening test, such as for hearing, vision or scoliosis, and any follow-up to the test, and any other basic health information, as determined by the state superintendent. Any pupil record relating to a pupil's physical health that is not a pupil physical health record is treated as a patient health care record under sections 146.81 to 146.84, Wisconsin Statutes. Any pupil record concerning HIV testing is treated as provided under section 252.15, Wisconsin Statutes.

The Family Educational Rights and Privacy Act (FERPA), the Individuals with Disabilities Education Act (IDEA), and section 118.125, Wisconsin Statutes, afford parents and students over 18 years of age ("eligible students") the following rights with respect to education records:

*The right to inspect and review the student's education records within 45 days of receipt of the request. Parents or eligible students should submit to the school principal [or appropriate school official] a written request that identifies the records(s) they wish to inspect. The principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected. The school district will comply with the request without unnecessary delay and before any meeting about an individualized education program, or any due process hearing, and in no case more than 45 days after the request has been made. If any record includes information on more than one child, the parents of those children have the right to inspect and review only the information about their child or to be informed of that specific information. Upon request, the school district will give a parent or eligible student a copy of the progress records and a copy of the behavioral records. Upon request, the school district will give the parent or eligible student a list of the types and locations of education records collected, maintained, or used by the district for special education. The school district will respond to reasonable requests for explanations and interpretations of the records. A representative of the parent may inspect and review the records.

*The right to request the amendment of the student's education records that the parent or eligible student believes is inaccurate or misleading. Parents or eligible students may ask the School District to amend a record that they believe is inaccurate or misleading. They should write the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the district decides not to amend the record, the district will notify the parent or eligible student of the decision and the right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

*The right to consent to disclosures of personally identifiable information in the student's education records, except to the extent that federal and state law authorize disclosure without consent. The exceptions are stated in 34 CFR 99.31, Family Educational Rights and Privacy Act regulations; Sec. 9528, PL107-110, No Child Left Behind Act of 2001; and section 118.125(2)(a) to (m) and sub. (2m), Wisconsin Statutes. One exception that permits disclosure without consent is disclosures to school officials with legitimate educational interests. A school official is a person employed by the district as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board; a person or company with whom the district has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the district discloses education records without consent to officials of another school district in which a student seeks or intends to enroll. Also, the district discloses "directory data" without consent, unless the parent notifies the district that it may not be released without prior parental consent.

*The right to file a complaint with the U. S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, S.W., Washington, DC.

(Wis. Stats. §§ 115.77(1m)(a), 115.777(3)(d), 115.792, 115.80, and Board Policy 2460) (See full notice on the school website.)

DIRECTORY DATA AND MILITARY RECRUITERS ACCESS OF STUDENTS/RECORDS

The Family Educational Rights and Privacy Act (FERPA) also requires the Edgar School District, with certain exceptions, to obtain your written consent prior to the disclosure of personally identifiable information from your child's education records. However, the District may disclose appropriately designated "directory information" without written consent, unless you have advised the District to the contrary in accordance with district procedures. The primary purpose of directory information is to allow the Edgar School District to include this information in certain school publications. Examples could include such items as: a playbill, showing your student's role in a drama production; school yearbook; an honor roll or other recognition lists; graduation programs; and sports activity sheets, such as wrestling, showing weight and height of team members.

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. Federal public law 107-110, section 9528 of the ESEA, "No Child Left Behind Act" requires school districts to release student names, addresses and phone numbers to military recruiters upon their request. The law requires a school district to notify a student of his/her right to opt-out by requesting that the school district does not release information to military recruiters. Students have the right to request that private information is not released to military recruiters. Students choosing to withhold private information from military recruiters should contact the high school office for an opt-out form**. The Edgar School District has designated the following information as directory information:

- A student's name;
- Photograph;
- Participation in officially-recognized activities and sports
- Height and/or weight, if a member of an athletic team;
- Date of graduation;
- Degrees and awards received.

Parents and eligible students may refuse to allow the Board to disclose any or all of such "directory information" upon written notification to the Board within fourteen (14) days after receipt of the District Administrator's annual public notice. (Wis Stats §118.125(2)(j) and Board Policy 8330, 20 U.S.C. 1232g, 20 U.S.C. 7908, 34 C.F.R. Part 99)

EARLY COLLEGE CREDIT PROGRAM (ECCP)

The Youth Options statute ([118.55](#)) was renamed the Early College Credit Program (ECCP). The ECCP statute allows Wisconsin public and private high school students to take one or more courses at an institution of higher education for high school and/or college credit. Under this section, "institution of higher education" means an institution within the University of Wisconsin System, a tribally controlled college, or a private, nonprofit institution of higher education located in the state. While technical colleges are not eligible institutions under the new program, pupils that have completed 10th grade will continue to have the option to take courses at technical colleges through a separate statute, [38.12\(14\)](#). School districts should contact the Wisconsin Technical College System listed below for more information on technical college dual credit options. All changes were effective 7/1/2018. (Wis. Stats §§ 118.385(4), 118.55(8), and 118.57, PI 40 WI Admin Code and Board Policy 2271)

- If you are personally aware of or are acquainted with any children or youth who may qualify according to the above criteria, the School District provides the following assurances to parents and guardians of homeless children and youth and unaccompanied homeless youth:
- The child or youth shall be immediately enrolled and allowed to fully participate in school, even if unable to produce records normally required for enrollment (e.g., academic records, immunization and other required health records, proof of residency, or other documentation) or has missed application or enrollment deadlines during any period of homelessness.

- Homeless children and youths are not stigmatized or segregated on the basis of their status as homeless and have full and equal educational and related opportunities.
- Meaningful opportunities to participate in the education of their children including special notices of events, parent-teacher conferences, newsletters, and access to student records.
- Immediate enrollment and transportation to the school of origin. "School of origin" means the school that a child or youth attended when permanently housed or the school in which the child or youth was last enrolled, including a preschool.
- Written explanation of any decisions related to school selection or enrollment made by the school, the local educational agency, or the State educational agency involved, including the rights of the parent, guardian, or unaccompanied youth to appeal and receive prompt resolution of such decisions.

The school will make available upon written request to the principal the topic related to human growth and development. If you have any questions about the Human Growth and Development Curriculum, feel free to contact the counselor or principal at the high school. (Wis. Stats. §§ 118.019(3) and Board Policy 2414)

INDOOR ENVIRONMENTAL QUALITY MANAGEMENT PLAN

The Edgar School District can use a website, student handbook, local newspaper, or other appropriate means to notify students, staff, and the community that the district has an IEQ management plan in place. This annual publication is part of the Edgar School District's communication plan within the IEQ Management plan.

The Edgar School District would like to inform staff, students, parents, and the public of the district's indoor environmental quality (IEQ) management plan. The plan was initially developed in 2013 and is reviewed as necessary. The plan was developed as deemed appropriate for the district. Questions and concerns should be directed to the IEQ Coordinator. Copies of the plan are available at the district office for a fee. The district office is located at 203 E Birch Street, Edgar, WI, 54426. (Wis Stats. §118.075(4)(c) and Board Policy 8405)

MANAGEMENT OF CONCUSSION IN THE SCHOOL SETTING

The District is committed to ensuring the safety of students while at school and when participating in any school-sponsored events. The District recognizes that educating key individuals, including students, student-athletes, parents, coaches, school administrators, athletic directors, teachers, athletic trainers, physicians, and other health care providers about prevention and early recognition of concussions remains the most important components of improving the care of students with concussions.

The District is aware that head injuries, including concussions, can happen to any student, not just an athlete. The District has developed procedures to address head injuries that occur during the school day, during school sponsored events, and during school sponsored athletic events. Additionally, the District is committed to providing students who have experienced a concussion, a plan to ease back in to school life, "return to learn".

A concussion is a type of traumatic brain injury. Concussions occur when there is a forceful blow to the head or body that results in rapid movement of the head and causes any change in behavior, thinking, or physical functioning. Concussions are not limited to situations involving loss of consciousness. Some symptoms of a concussion include headache, nausea, confusion, memory difficulties, dizziness, blurred vision, anxiety, difficulty concentrating, and difficulty sleeping. (Wis Stats. §118.293 and Board Policy 5340)

MEAL CHARGE POLICY/FOOD SERVICE COLLECTION

Students of the District may participate in the school lunch program. Lunches shall be served each full school day which meet and/or surpass Federal standards of the National School Lunch Program.

Parents/guardians who claim that the financial condition of their families are such that they cannot afford to pay for the cost of their children's meals shall be invited to make application for free or reduced meals in accordance with Federal regulations. Service of free or reduced price meals shall be governed by Federal regulations.

Applications for free or reduced meals are available in all school offices or by calling the Food Service Office at 715-352-3321 or 715-352-2352 ext. 113.

Students may bring bag lunches from home. All students eating lunch at school shall be expected to eat in designated areas.

Account Balances

The District uses an automated school lunch accounting system to record food service payments and to monitor food transactions. The system functions as a debit system. Parents/Guardians are expected to maintain their lunch accounts in a positive status.

Pre-payment of school lunches are highly encouraged by the District. Parents choosing the pre-pay option will receive a ten dollar (\$10) discount for pre-paying for a full semester, and a twenty-five dollar (\$25) discount if they pre-pay for a full year. The option is available to families that are required to pay the regular amount for the lunch program.

The Food Service Director shall be responsible for the accurate and timely collection of funds due to the District from food service related transactions. Parents may call the Food Service Office, 715-352-3321 to inquire about the status of their child's lunch account.

Insufficient Account Status Notification Process

- A. Automated calls will be made to parents whose students have accounts with a negative balance.
- B. When a child's bill reaches a balance of negative fifty dollars (\$50), a letter will be sent to inform parents that their child will no longer be allowed to charge breakfast or lunch if the bill is not paid or unless other arrangements for payment are made with the Food Service Office.

Parents who do not meet this deadline will be asked to send a bag lunch with their child(ren) or pay daily. If the parent does not provide lunch for the child, a sandwich, piece of fruit and milk will be provided at a cost of one dollar (\$1.00) to be charged to the student's account.

- C. The Edgar School District may file a claim with small claims court or utilize the service of a collection agency and/or legal counsel to secure collection of unpaid debts not paid within thirty (30) days of the actual restriction of access to food service programs, unless an alternative payment plan has been approved by the District Administrator.
- D. In accordance with the USDA regulations, children receiving free meal benefits cannot be denied a meal for any reason, including failure to maintain their family lunch account in a positive status.

MENINGOCOCCAL DISEASE INFORMATION

Public health authorities recommend that teenagers and college-bound students be immunized against a potentially fatal bacterial infection called meningococcal disease, a type of meningitis. The Centers for Disease Control and Prevention (CDC) and other leading medical organizations recommend routine meningococcal immunization for adolescents during the preadolescent doctor's visit (11- to 12-year-olds), adolescents at high school entry (15-year-olds) if they have not previously been immunized, and for college freshmen living in dormitories. Meningococcal disease is a rare but potentially fatal bacterial infection that can cause severe swelling of the brain and spinal cord (meningitis) or a serious blood infection (meningococemia). Meningococcal disease strikes up to 3,000 Americans each year; nearly 30 percent of these cases are among teenagers and college students. A meningococcal vaccine is available for use among persons aged 11 to 55 years, which provides protection against four of the five types of bacteria that cause meningococcal disease. Many parents are unaware of the dangers the disease poses to their children and that a vaccine is available that may help to prevent up to 83 percent of cases among teens and college students. Immunization is the most effective way to prevent this very serious disease

About Meningococcal Disease

Meningococcal disease is often misdiagnosed as something less serious because early symptoms are similar to common viral illnesses. Symptoms of meningococcal disease may include high fever, severe headache, stiff neck, nausea, vomiting, sensitivity to light, confusion, exhaustion and/or a rash. Meningococcal disease is spread through direct contact with respiratory and/or oral secretions from infected persons (for example, kissing or sharing drinking containers). It can develop and spread quickly throughout the body, so early diagnosis and treatment are very important. Even with immediate treatment, the disease can kill an otherwise healthy young person within hours of

first symptoms. Of those who survive, up to 20 percent may endure permanent disabilities, including brain damage, deafness and limb amputations. Lifestyle factors common among teenagers and college students are believed to put them at increased risk of contracting meningococcal disease. These lifestyle factors include crowded living situations (for example, dormitories, sleep-away camps), active or passive smoking and irregular sleeping habits. Teens should avoid sharing eating utensils and drinking out of the same container, since infections may spread through this type of close contact.

NOTICE OF THE STUDENT ACADEMIC STANDARDS IN EFFECT FOR THE 2024-2025 SCHOOL YEAR

The Edgar School District is committed to ensuring academic excellence in every school classroom so that all children perform at high levels and achieve proficiency.

Edgar has a 7 year curriculum mapping plan in place for all subject/content areas. This process involves teachers becoming familiar with the new and updated standards, collaborating with colleagues in their department, aligning resources, identifying assessments as well as the culmination of writing/mapping out their curriculum. Each building office has a copy of the written curriculum.

We believe that children learn in different ways and therefore have made a commitment to offer new and unique learning opportunities to meet the varied needs of our students.

To help you better understand what students are learning in each subject and grade level, we have been developing our curriculum based on selected academic standards.

For the different academic areas, we focus our curriculum development by drawing from many different resources and utilizing the standards as noted:

Geography and History – WI Social Studies Standards
English Language Arts - Common Core Standards (as previously adopted by the DPI)
Reading and Writing - Common Core Standards (as previously adopted by the DPI)
Mathematics - Common Core Standards (as previously adopted by the DPI)
Science - WI Science Standards

You can access the standards websites via the school district website links below or on the school district website:

PERSONAL COMMUNICATION DEVICES

The Board of Education recognizes the value of students maintaining communication with their parents/guardians and other appropriate persons for health, safety and educational purposes. The District also recognizes that students at different ages should have different privileges with wireless communication devices while on school premises. Therefore, the following applies to students in grades 6-12:

Students may use personal communication devices (PCDs) before and after school, during their lunch break, in between classes as long as they do not create a distraction, disruption or otherwise interfere with the educational environment, during after school activities (e.g., extra-curricular activities), or at school-related functions. Use of PCDs, except those approved by a teacher or administrator, at any other time is prohibited.

However, technology including, but not limited to, PCDs intended and actually used for instructional purposes (e.g., taking notes, recording classroom lectures, writing papers) will be permitted, as approved by the classroom teacher or the building principal.

For purposes of this policy, "personal communication device" includes computers, tablets (e.g., iPads and similar devices), electronic readers ("e-readers"; e.g., Kindles and similar devices), cell phones (e.g., mobile/cellular telephones, smartphones (e.g., BlackBerry, iPhone, Android devices, Windows Mobile devices, etc.)), and/or other web-enabled devices of any type. Students may not use PCDs on school property or at a school-sponsored activity to access and/or view Internet web sites that are otherwise blocked to students at school. Students may use PCDs while riding to and from school on a school bus or other Board-provided vehicles or on a school bus or Board-provided vehicle during school-sponsored activities, at the discretion of the bus driver, classroom teacher, or sponsor/advisor/coach. Distracting behavior that creates an unsafe environment will not be tolerated.

Except as authorized by a teacher, administrator or IEP team, students are prohibited from using PCDs during the school day, including while off-campus on a field trip, to capture, record and/or transmit the words or sounds (i.e., audio) and/or images (i.e., pictures/video) of any student, staff member or other person. Using a PCD to capture, record and/or transmit audio and/or pictures/video of an individual without proper consent is considered an invasion of privacy and is not permitted. If the violation involves potentially illegal activity the confiscated-PCD may be turned-over to law enforcement.

The use of wireless communication device in locker rooms is strictly prohibited. Individuals who violate this policy will be subject to school disciplinary action and possible legal referral. (Wis. Stats. § 118.258 and Board Policies 5136 & 9151)

PROGRAM OR CURRICULUM MODIFICATIONS

The Board recognizes that the regular school program may not be appropriate for all students. Some students may need program or curriculum modifications to successfully meet the District's academic goals and/or graduation requirements. (See Policy 5461) Any student's parent, or the student if the parent is notified, may submit a written request to the Board, to provide the student with program or curriculum modifications according to Board Policy 2451. (Wis. Stats § 118.15 and Board Policy 2451)

PROGRAMS FOR ENGLISH LANGUAGE LEARNER STUDENTS

The parents/guardians of limited English Proficient (English Learner) students participating in a language instruction program shall be notified, no later than 30 days after the beginning of the school year, of the following:

- Placement and reason why their child was identified as LEP
- Child's academic achievement level and level of English proficiency (including method of measurement)
- The methods used for language instruction
- How the language program will meet the child's instructional needs
- How the program will help the child to learn English and meet the academic standards for promotion or graduation
- In the case of a child with a disability, how the program meets the child's IEP objectives.
- The exit requirements for the language program
- An explanation of parental rights, including the parent's right to enroll or remove a child from the language instruction program (ESEA, Wis. Stats. §115.96(2), 20 U.S.C. 6312, and Board Policy 2260.02)

RESPIRATOR AUTHORIZATION

The Board believes that the employees and students of this District, as well as visitors, are entitled to function in an environment as free from hazards as can reasonably be provided. In this regard and in accordance with law, the Board will provide reasonable and adequate protection to the lives, safety, and health of its employees, students, and visitors. (Board Policy 7430 and Legal Citation 101.055)

SCHOOL PERFORMANCE DATA/ACCOUNTABILITY REPORT

Under Section 115.38(2) of the state statutes, school boards are required to notify, by January 1 each year, the parent/guardian of each student enrolled in the district of their right to request a school and school district performance report. The report must be distributed to those parents/guardians who request it by May 1 each year. District and school data regarding test results, graduation, attendance, other academic indicators, teacher quality, and more can be located on the DPI WISEdash Public Portal. To find information for the Edgar School District or your student's school, go to: <http://wisedash.dpi.wi.gov/Dashboard/portalHome.jsp>. If you do not have home web access, contact your school's principal for access to a school computer. For further information or assistance, contact Cari Guden at 715-352-2351, ext. 102. (Wis. Stats. §§118.57(2), 115.385(4), 120.123, and Board Policy 2605 and 2700.01)

SPECIAL EDUCATION PROCEDURES & SERVICES AND CHILD FIND NOTICE

Upon request, the Edgar School District is required to evaluate a child for eligibility for special education services. A request for evaluation is known as a referral. When the district receives a referral, the district will appoint an Individualized Education Program (IEP) team to determine if the child has a disability, and if the child needs special education services. The district locates, identifies, and evaluates all children with disabilities who are enrolled by their parents in private (including religious) schools, elementary schools and secondary schools located in the school district.

A physician, nurse, psychologist, social worker or administrator of a social agency who reasonably believes a child brought to him or her for services is a child with a disability has a legal duty to report the child to the school district in which the child resides. If the child attends a private school in another school district, the child should be reported to the school district where the child attends school. Before referring the child, the person making the referral must inform the child's parent that the referral will be made. The referral must be in writing and include the reason why the person believes the child is a child with a disability. Others who reasonably believe a child is a child with a disability may also refer the child.

Referrals must be in writing and include the reason why the person believes the child is a child with a disability. A referral may be made by contacting Jason Haluska, Marathon County Special Education at 715-261-1980, or by writing Jason Haluska, Edgar School District, PO Box 196, Edgar, WI 54426. (Wis Stats 115.777(1m)(a) Wis. Stat 115.777, Wis. Stats 115.7773 (3)(d) & Wis. Stats 115.792)

SPECIAL NEEDS SCHOLARSHIP PROGRAM (SNSP)

This notice serves to inform parents and guardians of students with disabilities that the State of Wisconsin has established the "Special Needs Scholarship Program." Under this scholarship program, a child with a disability may be eligible to receive a scholarship from the Department of Public Instruction (DPI) that allows the child to attend a private school that is participating in the scholarship program.

A parent or guardian who is interested in the Special Needs Scholarship Program should independently verify the participating private schools and the specific terms, eligibility criteria, and application procedures of the scholarship program with the DPI.

The 2022-23 eligibility is as follows: A student must be a Wisconsin resident and must either have: (1) an Individualized Education Program (IEP) or services plan that is currently being implemented **or** (2) an IEP or services plan that was developed no earlier than three years prior to September 15 of the school term during which the student applies to the SNSP, **and** have not subsequently been determined to no longer have a disability.

Additional information about the Special Needs Scholarship Program should be available on the website of the Wisconsin Department of Public Instruction: <http://dpi.wi.gov/>. (Wis Stats. §115.7915(5))

STUDENT ATTENDANCE

In accordance with state law, all parents must cause children between 6 and 18 years of age to attend school unless the child has graduated, is excused by the school attendance officer or parent, or is enrolled in an alternative program leading toward graduation. The responsibility for monitoring and encouraging attendance is shared by the parents, schools, and the community. The parent or guardian of absent students is expected to notify the school on the day the absence occurs. The school shall report a student's unexcused absences to the parent or guardian. Students are allowed and encouraged to make up work missed during excused absences from school. It is the student's responsibility to request assignments and schedule make-up exams. Missing school for unexcused absences will have a negative impact on a student's grade and in some cases contribute to the overall failure of a course. Open-enrollment applicants/students must follow the District's attendance policy and know that there are possible consequences of habitual truancy, which could affect the student's acceptance/continuation in the open enrollment program of the District. The school shall have the authority to initiate action as stated in Board Policy 5200 to secure a student and/or parents or guardians' compliance with compulsory attendance law. (Wis. Stats §§118.15(1) and 118.16(4)(d), Wisconsin Admin Code PI 36.09(2), and Board Policy 5200)

STUDENT CODE OF CLASSROOM CONDUCT

Respect for law and for those persons in authority shall be expected of all students. This includes conformity to school rules as well as general provisions of law regarding minors. Respect for the rights of others, consideration of their privileges, and cooperative citizenship shall also be expected of all members of the school community.

Students in the School District of Edgar shall be expected to act in such fashion that their behavior reflects favorably on the individual student and on the school, show consideration for fellow students, and create a harmonious school atmosphere. To accomplish this, each student must recognize individual responsibilities and obligations, and discharge them in accordance with school rules.

Students are expected to abide by the code of conduct and behavior as outlined in the student handbook, as stated in the rules established by building principals for each school, and as outlined in the Board-approved code of classroom conduct.

All employees shall share responsibility for supervising the behavior of students and for seeing that they meet the standards of conduct established by the building principal and the Board. In enforcing rules for student conduct, staff members shall place particular emphasis upon educating students in the ability to control themselves. (Wis. Stats §§ 120.13(1)(a) and Board Policy 5500, 5511)

STUDENT DRUG PREVENTION

The School District of Edgar believes that along with parents/guardians and other segments of the community, the school has a role in helping students make responsible decisions. The Board of Education recognizes that the misuse of drugs is a serious problem with legal, physical, and social implications for the entire school community. The District wishes to cooperate with the community in making assistance available. (Wis. Stats §§118.24(2)(f), DFSCA of 1989, and Board Policies 5500 & 5530)

STUDENT HARASSMENT

The Edgar District is committed to maintaining a learning and working environment for students and employees free from harassment, discrimination, or intimidation.

Harassment refers to the acts of physical, verbal, or psychological behavior based on race, color, religion, national origin, ancestry, creed, pregnancy, parental or marital status, sexual orientation, physical, learning, mental or emotional disability or handicap which would create an intimidating, hostile, or offensive environment.

Students who experience harassment may immediately make it clear that such behavior is offensive. Students are entitled to due process protection and are encouraged to report the incidents to:

Dr. Cari Guden, District Administrator
Edgar School District
203 E Birch Street
PO Box 196
Edgar, WI 54426
(715) 352-2351

There shall be no retaliation against students who file complaints in good faith under this policy. A complaint shall be submitted within forty-five (45) working days of the occurrence of the incident being reported. (Board Policy 5517)
(WI Stats § 118.13, Title IX of the Educational Amendments of 1972 (sex), 20 U.S.C. 1701, 29 U.S.C. 794, 42 U.S.C. 12101, and PI 9 & PI 41 Wisconsin Admin Code)

STUDENT LOCKER SEARCHES

Every student has the right to the use of the locker which has been assigned to him/her. The lockers remain the property of the school district. This policy does not preclude periodic inspections for the purposes of cleaning lockers, or, for example such actions as recovering library materials and textbooks. School administrators or their designees may search lockers with or without prior notice to the student. The student must use the locker assigned to them by the professional staff to the school. (Wis. Stats. §118.325 and Board Policy 5771)

STUDENT PRIVACY & PARENTAL ACCESS TO INFORMATION

The Protection of Pupil Rights Amendment (PPRA) (20 U.S.C. § 1232h; 34 CFR Part 98) applies to programs that receive funding from the U.S. Department of Education (ED). PPRA is intended to protect the rights of parents and students in two ways:

- It seeks to ensure that schools and contractors make instructional materials available (including library materials) for inspection by parents if those materials will be used in connection with an ED-funded survey, analysis, or evaluation in which their children participate; and
- It seeks to ensure that schools and contractors obtain written parental consent before minor students are required to participate in any ED-funded survey, analysis, or evaluation that reveals information concerning:
 1. Political affiliations;
 2. Mental and psychological problems potentially embarrassing to the student and his/her family;
 3. Sex behavior and attitudes;
 4. Illegal, anti-social, self-incriminating and demeaning behavior;
 5. Critical appraisals of other individuals with whom relationships;
 6. Legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers;
 7. Religious practices, affiliations or beliefs of the student or student's parents; or
 8. Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

Parents or students who believe their rights under PPRA may have been violated may file a complaint with ED by writing the Family Policy Compliance Office. Complaints must contain specific allegations of fact giving reasonable cause to believe that a violation of PPRA occurred.
