

CARL SOCZKA

GRADUATED FROM EDGAR HIGH SCHOOL IN 1961

Carl Soczka graduated from Edgar High School in 1961, earned an associate degree in mechanical design from North Central Technical Institute and a BS in mechanical engineering from Marquette University, Milwaukee. He is a Licensed Professional Engineer in the State of Wisconsin since 1977.

Carl is credited with three US Patents on his inventions of equipment for mining purposes. Carl is currently employed at Harnischfeger Corporation in Milwaukee as a senior product specialist where he is responsible for application engineering and cost estimating for large structures (dippers) for mining equipment. He is also involved in marketing of dippers and products. Prior to his employment with Harnischfeger Corporation, Carl was employed as an engineer and draftsman for several companies in southern Wisconsin.

Carl is the oldest of ten children. He and his wife, Faith Ann, have one son, Tim, and two grandchildren.
