

## JOEL P. STENCIL

### GRADUATED FROM EDGAR HIGH SCHOOL IN 1982

After graduating from Edgar High School, Joel attended North Central Technical College in Wausau, WI from 1982-84. He earned an associate's degree in electronics. He chose this field because of the H.S. electrical basics class influence.

Joel & a partner founded Membrane Process and Controls, Inc. 1992. The Company focus was and is to serve the food and dairy industry in providing quality equipment, process design and automation of this equipment and processes. The equipment scope focused mainly on providing molecular separation equipment to fractionate liquid streams, hence "Membrane" in our company name. Membrane Process and Controls was solely purchased by Joel Stencil in 1994. Coupled with exceptional service and support MP&C continued to grow from this point until moving to their current location at 922 North 3rd Ave., Edgar, WI in April of 1995. The focus of MP&C has not shifted but only expanded since its founding. New areas added include milk and whey pasteurizers, cleaning systems, product delivery systems, inventory control, customized pharmaceutical and BioTech processes and equipment, waste water reclamation and reduction. The business has evolved through the years to provide turnkey plant process systems for milk, cheese, whey, beverage, egg, and plasma, as well as plant automation and integration of process equipment in food grade manufacturing facilities. Services include electrical engineering, process engineering, mechanical engineering, automation technical services, software development and configuration, design and process consulting services. The markets MP&C serves are Global. MP&C is recognized as a leader in membrane filtration and in the industries it serves.

Joel is married to Marcia and they have five children. Luke-20, Phillip-18, Leah-16, ChiAnna-11 and Mia-7. Luke and Phillip attend North Central Technical College. Leah is a junior at Athens High School and Chi Anna and Mia attend Trinity Lutheran School in Athens. Chi Anna and Mia are both adopted from China. The Stencils reside north of Edgar in the Rib Falls area and enjoy country living. The Stencil's enjoy volunteering for youth program leadership and fundraisers. The family holds high its Christian values and desire to be a light in the community and elsewhere. Other hobbies and interests include hunting, fishing, major home projects, family events and gatherings, church activities, making maple syrup and dirt biking.
